

MD's stamp or details

Expiring date: 3 months from prescription date

**MD:** Fill out the yellow parts

**Biologists:** Perform a blood withdrawal in a fasting patient to analyze the markers as indicated below in order to calculate the FibroMeter.

For more information, contact us @ [contact@biols.fr](mailto:contact@biols.fr) or on **+33 (0) 2.41.36.07.19**. You can also visit our website [www.biols.fr](http://www.biols.fr) or ask your usual **specialized laboratory**.

Patient: ..... date .....

Date of birth: ..... Gender: M :  F :

FibroMeter according to the etiology	Available tests	Prescription Tick the appropriate box(es) of only one etiology (*)
<b>FibroMeter V</b>	<b>Score of fibrosis and activity:</b> <ul style="list-style-type: none"> <li>Alpha 2 macroglobulin, hyaluronic acid,</li> <li>Platelets, prothrombin time,</li> <li>AST, ALT, Urea</li> </ul>	<input type="checkbox"/>
	Report the presence of <b>another disease</b> (other than chronic liver disease) or a <b>treatment</b> that could affect <b>one</b> of the above markers of the viral score of fibrosis: <b>Marker :</b> ..... <b>Cause :</b> .....	
	<b>Percentage of fibrosis:</b> Add to the biological markers of the score: <ul style="list-style-type: none"> <li>Bilirubin, GGT</li> </ul>	<input type="checkbox"/>
<b>FibroMeter A</b>	<b>Score of fibrosis:</b> <ul style="list-style-type: none"> <li>Alpha 2 macroglobulin, hyaluronic acid,</li> <li>Prothrombin time</li> </ul>	<input type="checkbox"/>
	<b>Percentage of fibrosis:</b> Add to the biological markers of the score: <ul style="list-style-type: none"> <li>Platelets</li> </ul>	<input type="checkbox"/>
<b>FibroMeter S</b>	<b>Score of fibrosis:</b> <ul style="list-style-type: none"> <li>Platelets,</li> <li>AST, ALT, Ferritin, Glucose</li> </ul>	<input type="checkbox"/>
	<ul style="list-style-type: none"> <li><b>Patient's weight:.....Kg (compulsory)</b></li> </ul>	

(\*) if 2 associated causes including **V**: choose **V**; if **A & S** are associated : choose **S**

**Note to the patient**

With this blood test, the FibroMeter will allow your MD to assess the severity of your liver disease. This is very useful to your MD for the prognosis and also in order to better adapt your treatment. The cost of a **FibroMeter** is divided into 2 parts: the biological part (blood analyses) and the **FibroMeter scores** which are charged **50€** More information on: [www.biols.fr](http://www.biols.fr).
